The image shows a 'Queue Properties' dialog box with a title bar containing a queue icon and a close button. It has four tabs: 'General', 'Server Properties', 'Broadcast Properties', and 'Command Center'. The 'General' tab is active, showing a queue icon and the name 'TQ2'. Below this, there is a table of properties: Machine Name (sunset), IP Address (206.248.137.18), JSSA DLL Version (Version 2.4.1.128), and Control Center Status (not connected). A section for 'Event Logging' has a checkbox for 'Log Events to the JetControl systems application log' which is checked. An 'Attributes' section includes a 'Startup Hidden' checkbox (unchecked) and a 'Queue Priority Class' slider set to 'Normal'. A 'Defaults' button is also present. At the bottom are 'OK' and 'Cancel' buttons.

Queue Properties
